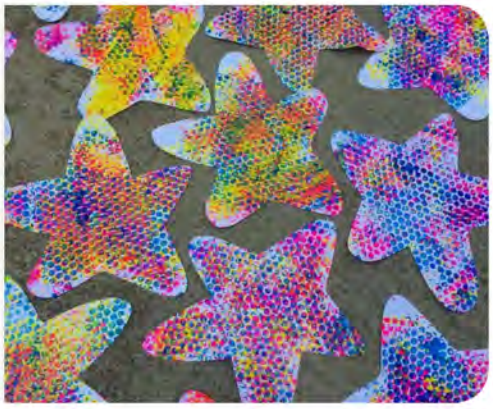
WARM UP BY READING THIS BEAUTIFUL BOOK!

QR AVAILABLE

Ready to watch!!



DESIGN YOUR STARFISH

MATERIALS:

- Star paper patterns to cut out on page 9

YOU WILL NEED:

- Bubble wrap

Paint

- *Practice Writing on Sand**

Begin by using capital letters, followed by lowercase letters. Engaging in writing practice and letter recognition can yield remarkable improvements!

PROJECT ACTIVITIES
LESSON PLANNING

I encourage you to watch this brief video that outlines the life cycle of sea turtles, which will enhance your understanding of their existence. Following the video, please engage in a sensory bin activity. These exercises not only aid in the retention of information but also foster a deeper comprehension of the turtles' life cycle. Utilize our printable Sea Turtle Life Cycle resource to provide visual support for the children, along with worksheets available on our website.

PROJECT ACTIVITIES
LESSON PLANNING

- *Puffer Fish Craft!**
- *Materials Needed:**
- Bubble Wrap
- Paint
- Bottle Lids
- Cardboard and Crayons

Don't forget your imagination!

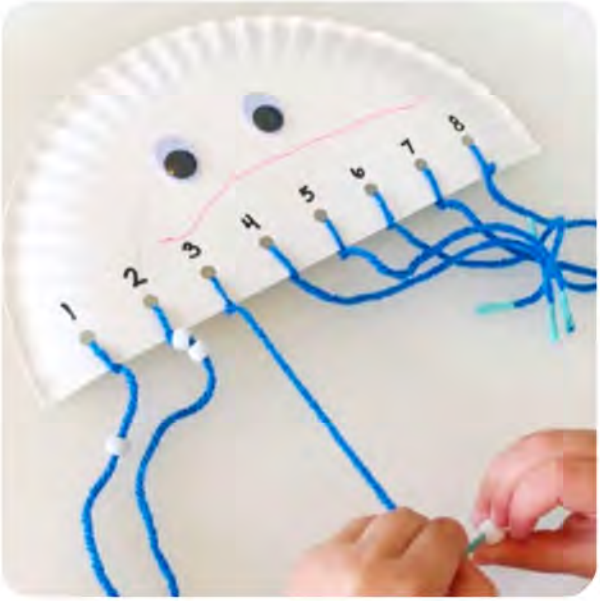
- *Writing Skills:**

1. Continue utilizing finger sand writing to enhance tactile learning.

Employ stamps to perfect letter sorting prompts in conjunction with flashcards.

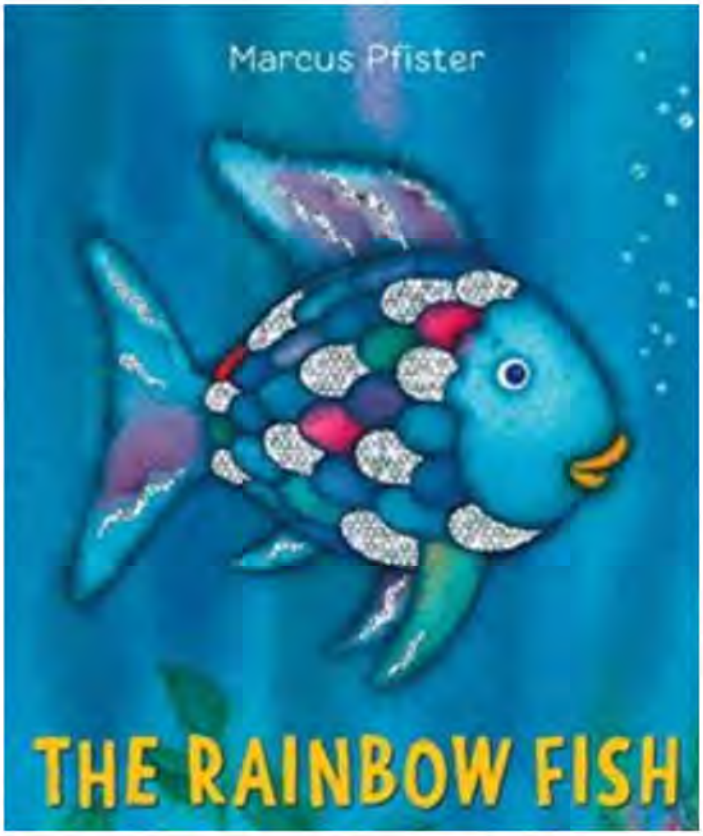
- **Number Counting**

1. Counting jellyfish with beads not only aids in the development of fine motor skills but also enhances quantity recognition.
2. Salted fish-shaped biscuits can serve as a fun way to count and consume, thereby increasing motivation. Page 56-63



PROJECT ACTIVITIES

LESSON PLANNING



- Begin with a story about "The Rainbow Fish," which serves as an excellent introduction to the themes of colors and marine life.
- Follow this with a playdough activity, allowing the children to shape their own fish. Alternatively, you can provide biscuit-shaped fish molds to assist them. Once their creations are complete, encourage them to embellish the scales with shiny, colorful sequins. Don't forget to add a wobbly eye to bring the fish to life!

- This song will keep your children singing repeatedly, ensuring they remember the name of this delightful creature!

To begin, take a disposable shower cap and affix long strips of colorful material—this could be fabric, plastic, or whatever you have on hand. Attach eyes to the cap, and once completed, play the song, having the children wear it as if they were jellyfish.

After this fun activity, they will be ready to sing the song and practice the letter "J."

PROJECT ACTIVITIES

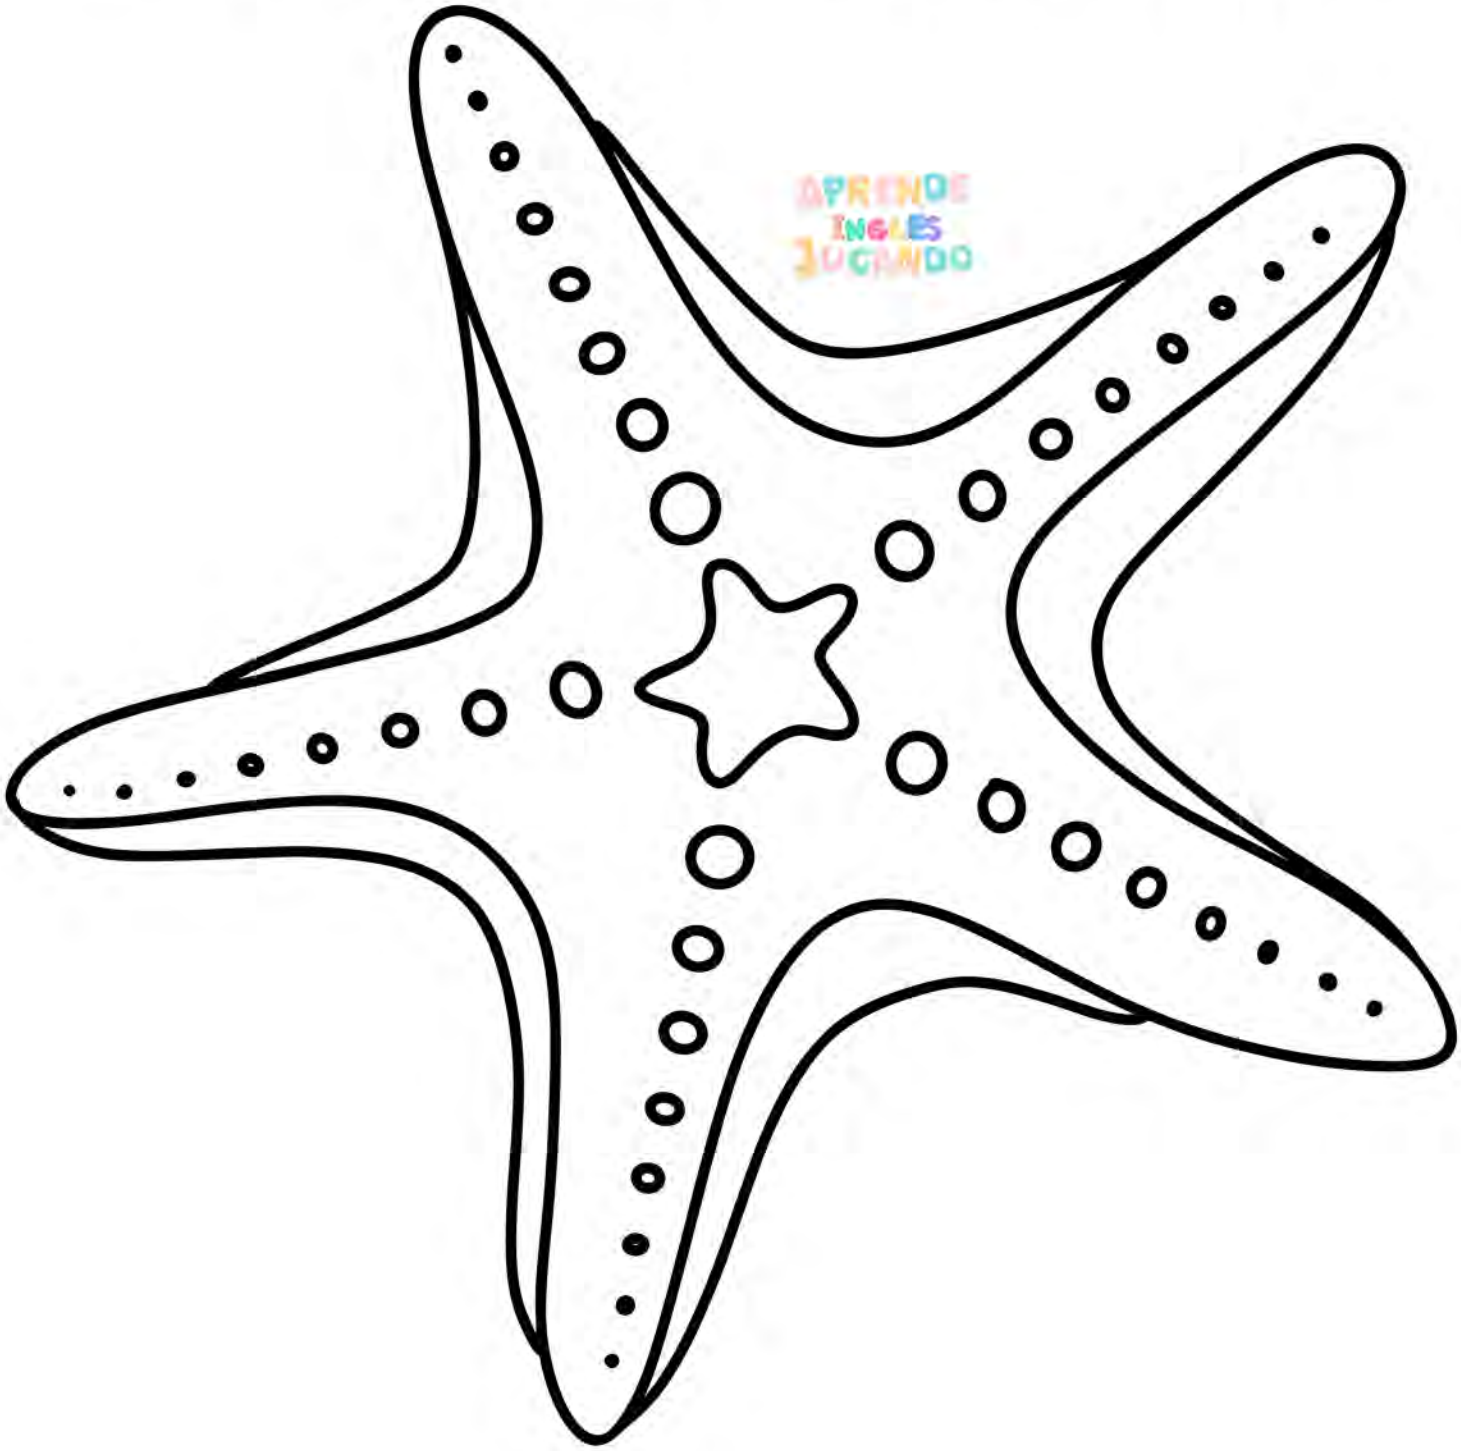
LESSON PLANNING

- Before beginning page 49, engage the children with a counting game using shells and pearls. This activity will enhance their ability to differentiate between quantities.

- Utilize small objects to create patterns of sea creatures; such activities are beneficial for young children as they enhance fine motor skills, which are essential for future writing abilities.

- Utilize Cheerios to create a starfish, which serves as an engaging method for counting and consumption, thereby enhancing motivation.

STAR FISH



PROJECT ACTIVITIES
LESSON PLANNING

- From pages 81 to 93, color and name the sea creatures as you desire, then cut them out and arrange them on a large piece of navy blue cardboard. Next, take a photograph of the child and include their goggles in the composition. Once completed, enhance the scene with decorations such as seaweed and bubbles, allowing your imagination to create a cohesive "under the sea" theme.
- For each creature paste its name must be said aloud

- Sensory bins will enable children to repeatedly identify the creatures, thereby reinforcing the connection between object names and their patterns. Additionally, incorporating color into their descriptions can enhance sentence clarity. For example, they might say, "This is a red crab."

- On page 93, utilize the object-searching worksheet to encourage participants to engage actively by digging in the ice to free the fish from its ice trap. Once the task is completed, provide a designated area for the flashcards where they can easily access them. Additionally, ensure they write down the name of each creature on their list.

UNIT 2

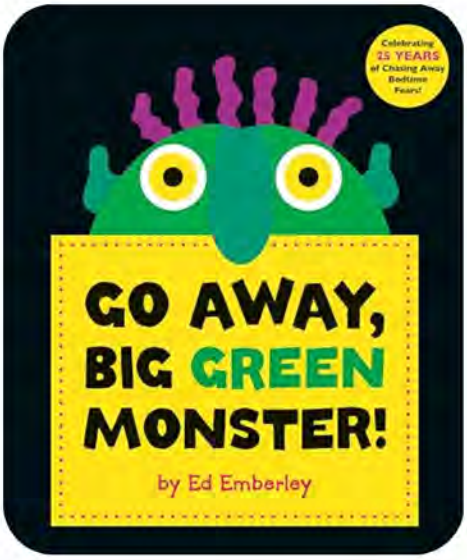
Halloween

PROJECT ACTIVITIES

VISIT OUR INSTAGRAM FOR ADDITIONAL INSPIRATION!

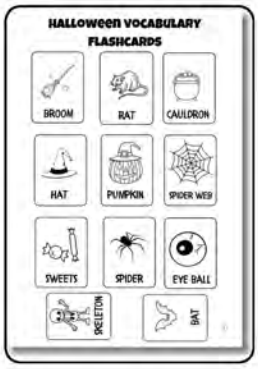
On pages 122-124, we will practice Halloween vocabulary using the "Halloween Vocabulary Flashcards," available on our website. The objective of the sensory bin activity is to associate each item with its corresponding name and pronunciation.

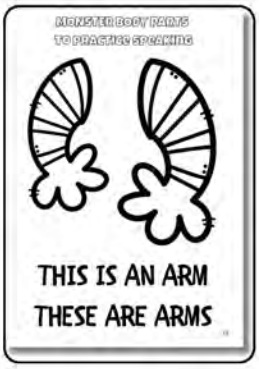
For additional Halloween activities, including exercises that utilize the structures "there is" and "there are," please visit our Instagram.

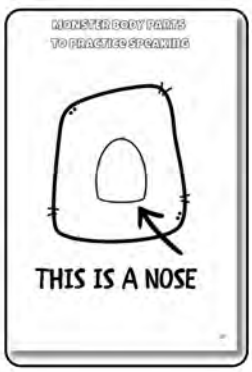


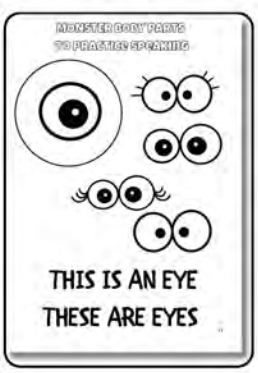
- On page 113, introduce the components of a monster's face using the accompanying book, along with the song included in the workbook. This activity is particularly engaging, as students are likely to enjoy singing the song for days afterward.
- Following the introduction, employ the monster body parts flashcards to facilitate sentence construction and enhance understanding of sentence structure. These body parts will be displayed on the whiteboard, and students will repeat the structures while analyzing the quantities presented. For example, they will learn to say, "This is a leg" and "These are ears."

HALLOWEEN VOCABULARY AND SPEAKING HALLOWEEN PROMPTS AVAILABLE AT OUR WEBSITE









PROJECT ACTIVITIES
TUFF TRAY - FINE MOTOR SKILLS

One of the tasks in the Anglia exam requires creating a monster's face and body parts from scratch. It is imperative to practice this skill in various ways. Consider utilizing sensory bins, Mr. Potato Head, and the relevant pages 114-117 to enhance your preparation effectively.

Engage children by incorporating this game, which encourages them to practice identifying various monster body parts!

UNIT3

Christmas

PROJECT ACTIVITIES

TUFF TRAY - FINE MOTOR SKILLS

Tiny fingers need a workout, so for Christmas, why not let them frolic in the frosty fun of snow? Dive into some snowy doodles with snow dust (a.k.a. flour) or craft a snowman with pretend snow (slime style). Don't forget the carrot nose and googly eyes for a giggle! Recipe for that faux snow and a jolly song to accompany the merriment are right here!

UNIT 4

All about insects

PROJECT ACTIVITIES

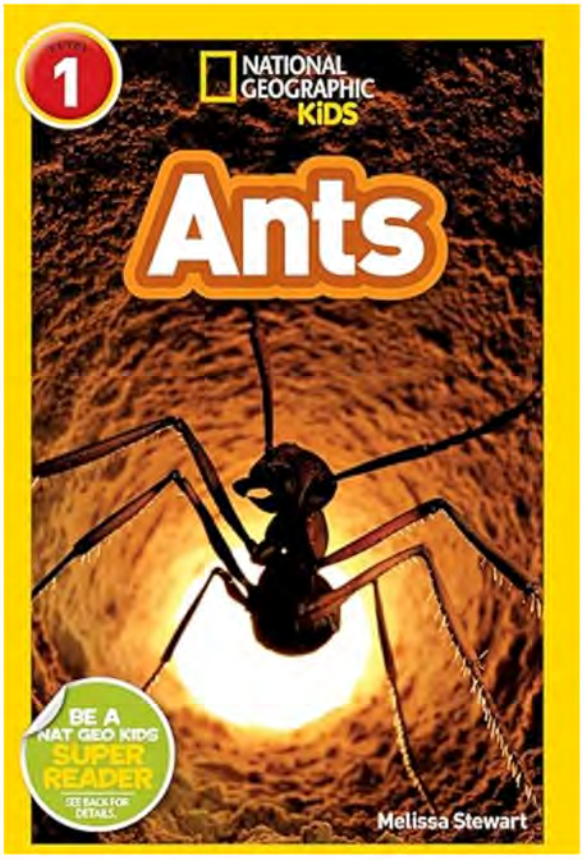
TUFF TRAY - FINE MOTOR SKILLS

Get ready to plunge into the land of creepy crawlies! Whip up a sensory bin with black beans as the "soil," toss in some toy bugs, and let the wild discovery adventure begin! Grab, gaze, and match each critter with its shadow or the right flashcard! Use these flashcards for a sprinkle of fun

With cardboard, black marker, pipe cleaners and beads, build up the perfect fine motor skill counter ever!.

PROJECT ACTIVITIES

TECHNO SONG



Ants are amazing creatures from which you can learn so much! Make your own ant nest and find out how they live and how they relate to each other. This book is one of the best easy fact ant books I always recommend!

PROJECT ACTIVITIES

LESSON PLANNING

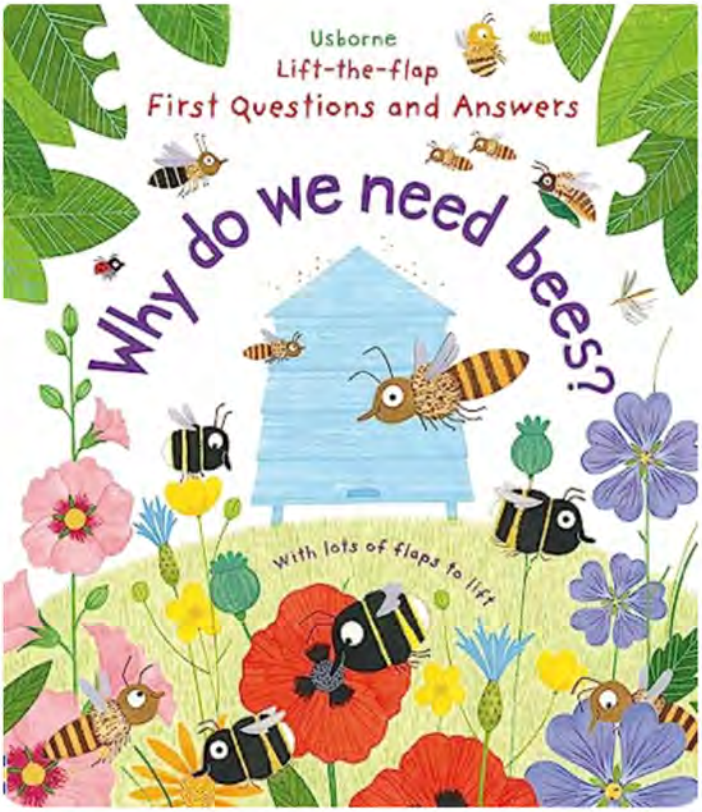
On pages 149 to 157, you will find the engaging lapbook for "The Very Hungry Caterpillar," accompanied by this delightful sing-along story.

On pages 145-147, you will find a comparison of the long and short caterpillars. Please distinguish between them by sorting them on the right side.

Keep working the longest and the shortest by the use of this book! Recommendation: use soil, cooked brown rice, lentils, or whatever you have on hand, and with tweezers let the fun begin!

LONG OR SHORT

PROJECT ACTIVITIES



On page 163, you'll find a bee that fits perfectly in children's fingers, allowing them to pretend the bee is flying, learn about bees, and understand how important they are by reading books about them and building a hive.

SONG & STORY

UNIT 5

Farm animals

PROJECT ACTIVITIES

Milk the cow

Free the cows

Pretend to "milk the cow," a very fun game where kids learn where milk comes from. Practice fine motor skills by trapping the cows with elastic bands so they have to release them!

PROJECT ACTIVITIES

LESSON PLANNING

It's time for sensory bin activities! Utilize dyed brown rice or lentils to simulate soil. Print out nest images and incorporate chicks or eggs for counting exercises. "Counting chicks on Nests" available at our website.

Encourage comparisons by asking questions such as: Which nest contains more or fewer eggs or chicks? Have the children construct complete structures, prompting them with statements like, "This nest has more eggs than that one."

PROJECT ACTIVITIES

TUFF TRAY - SPELLING

It is time to engage in sensory bin activities! Begin by mixing chocolate powder with water to create a mud-like consistency; if a thicker texture is desired, consider adding cornstarch. Once the mixture is prepared, immerse any toy pigs and piglets you have. After the toys are coated in the mixture, invite the children to participate in a playful "wash the muddy pigs" activity.

This interactive experience not only enhances their vocabulary related to farm animals but also reinforces the use of action verbs such as "wet," "rinse," and "dry." Additionally, provide them with flashcards illustrating the cleaning steps to enhance their understanding. These flashcards are available for purchase on our website under the title "Piggy Hand Washing Steps."

DON'T MISS OUT! HERE ARE FIVE ADDITIONAL IDEAS AT OUR INSTAGRAM REGARDING FARM PROJECT PLANNING.

PROJECT ACTIVITIES

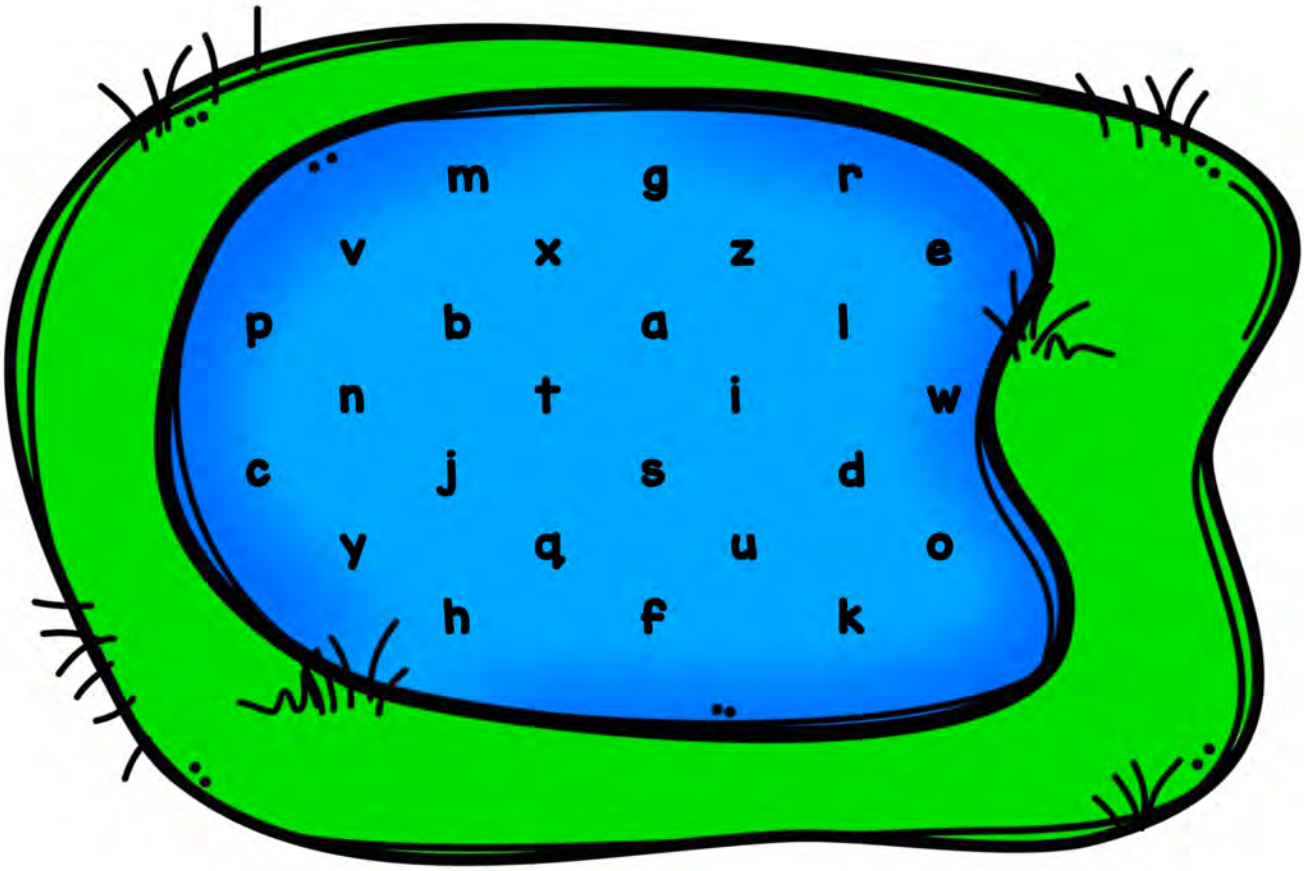
TUFF TRAY - FINE MOTOR SKILLS

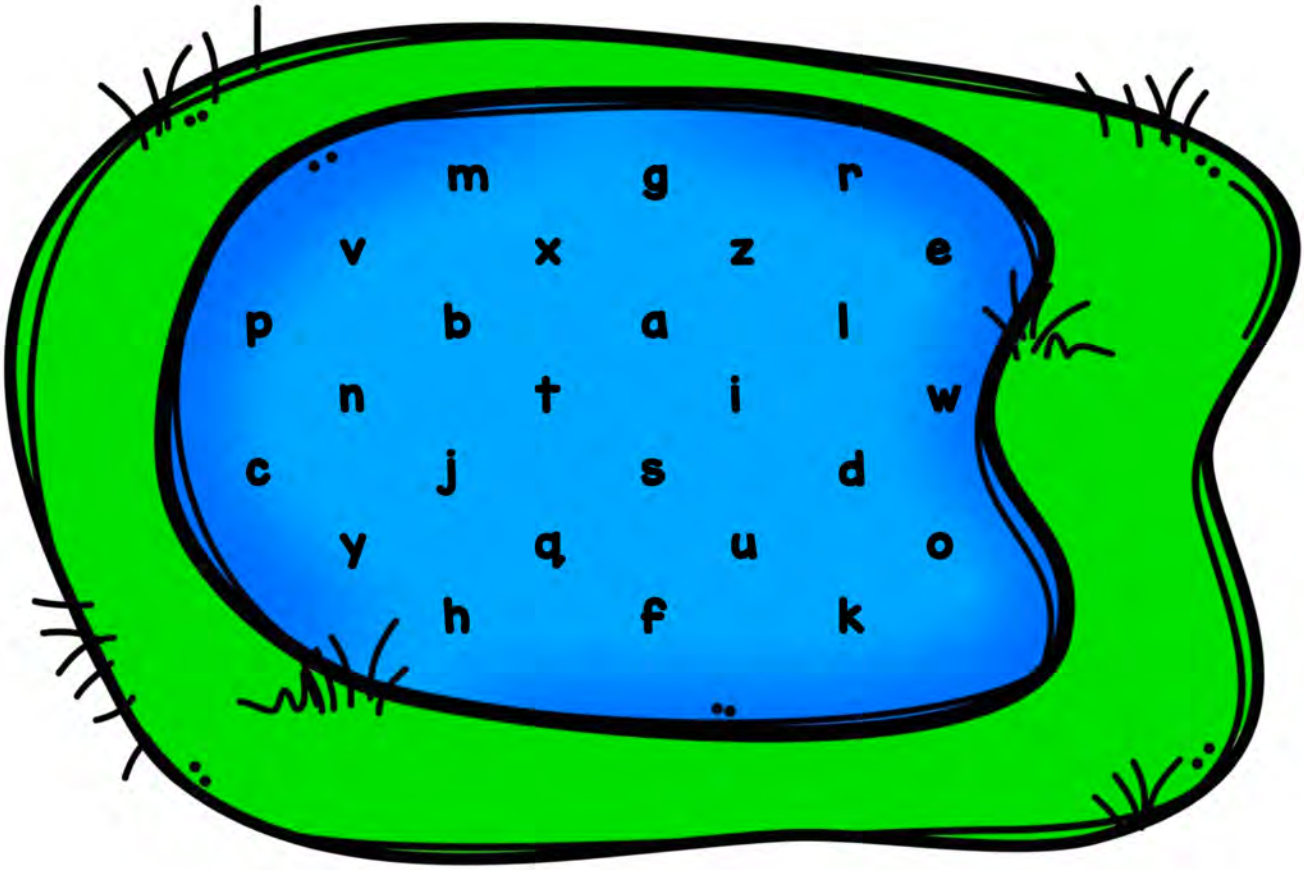
It is time to immerse ourselves in the captivating world of frogs! Consider using blue water beads or dyed blue rice to simulate a water environment, allowing children to sort and categorize jumping frogs by their colors. Additionally, incorporating playdough with letter stamps can effectively enhance letter recognition.

If feasible, introducing a tadpole observation tank in the classroom would offer students a profound insight into the frog life cycle, creating lasting memories of this remarkable transformation.

While engaging with the sensory bins, incorporating the song "Five Little Speckled Frogs" is essential for enhancing rhythm and memory retention.

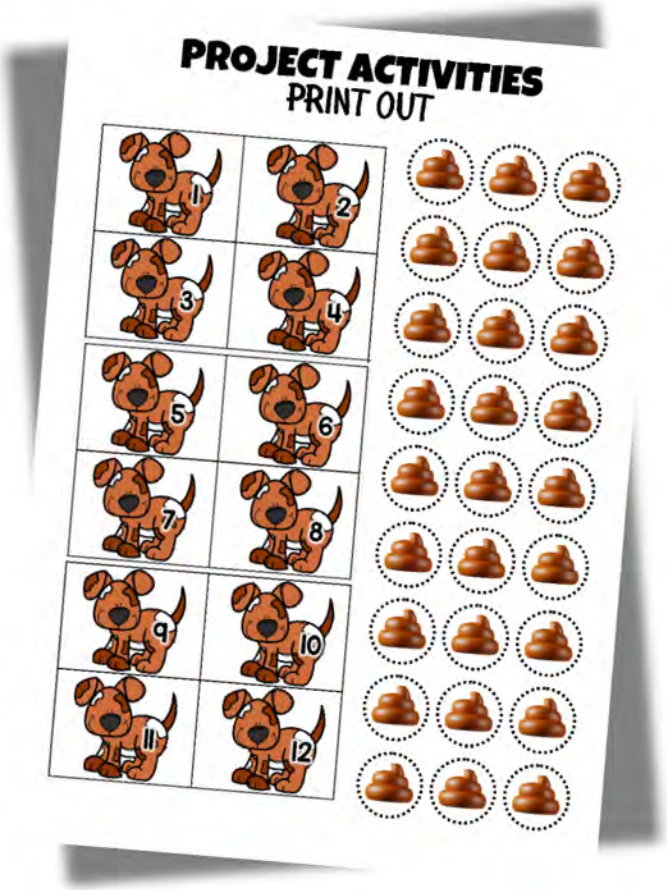
PROJECT ACTIVITIES
PRINT OUT





PROJECT ACTIVITIES

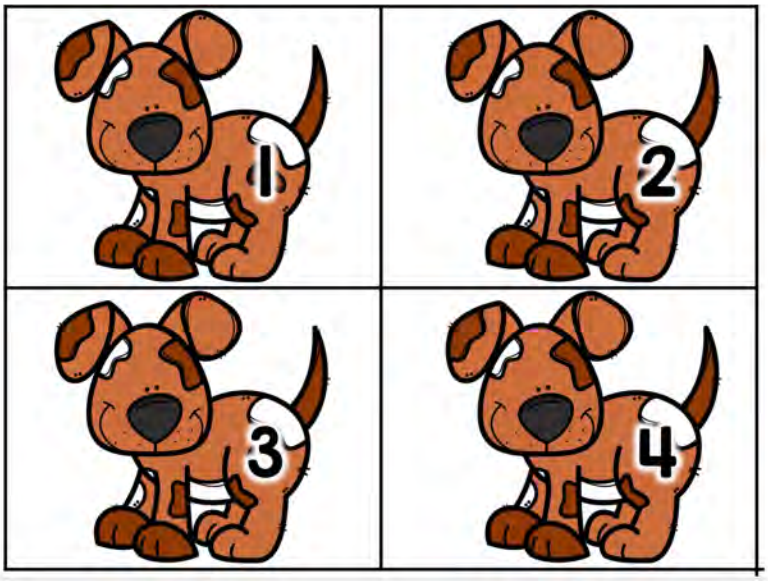
COUNTING "LINK A LEASH"
DOGGY POO COUNTING

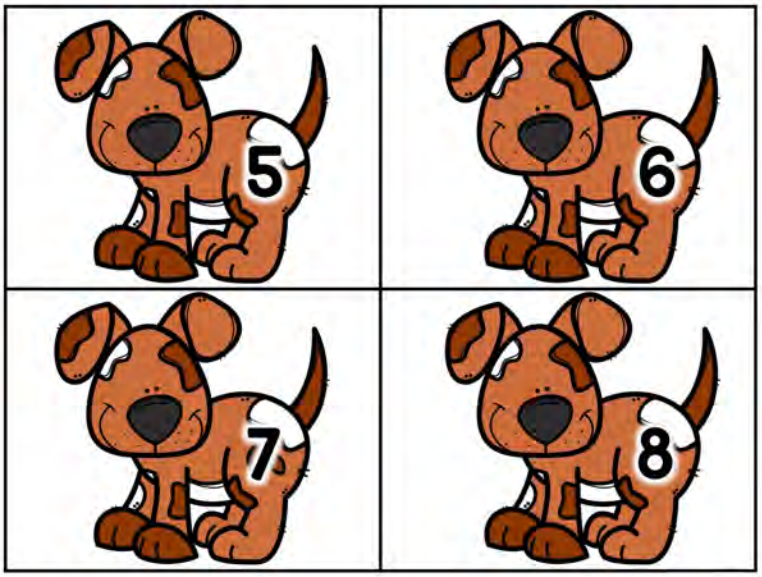


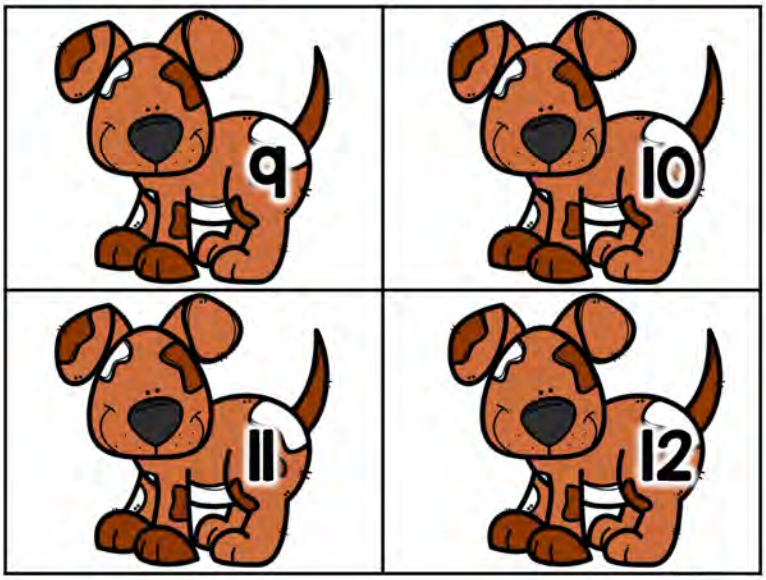
Counting and recognizing quantities involves linking the appropriate number of chains for the dog's leash or collecting the correct quantity of poos produced by the dogs.

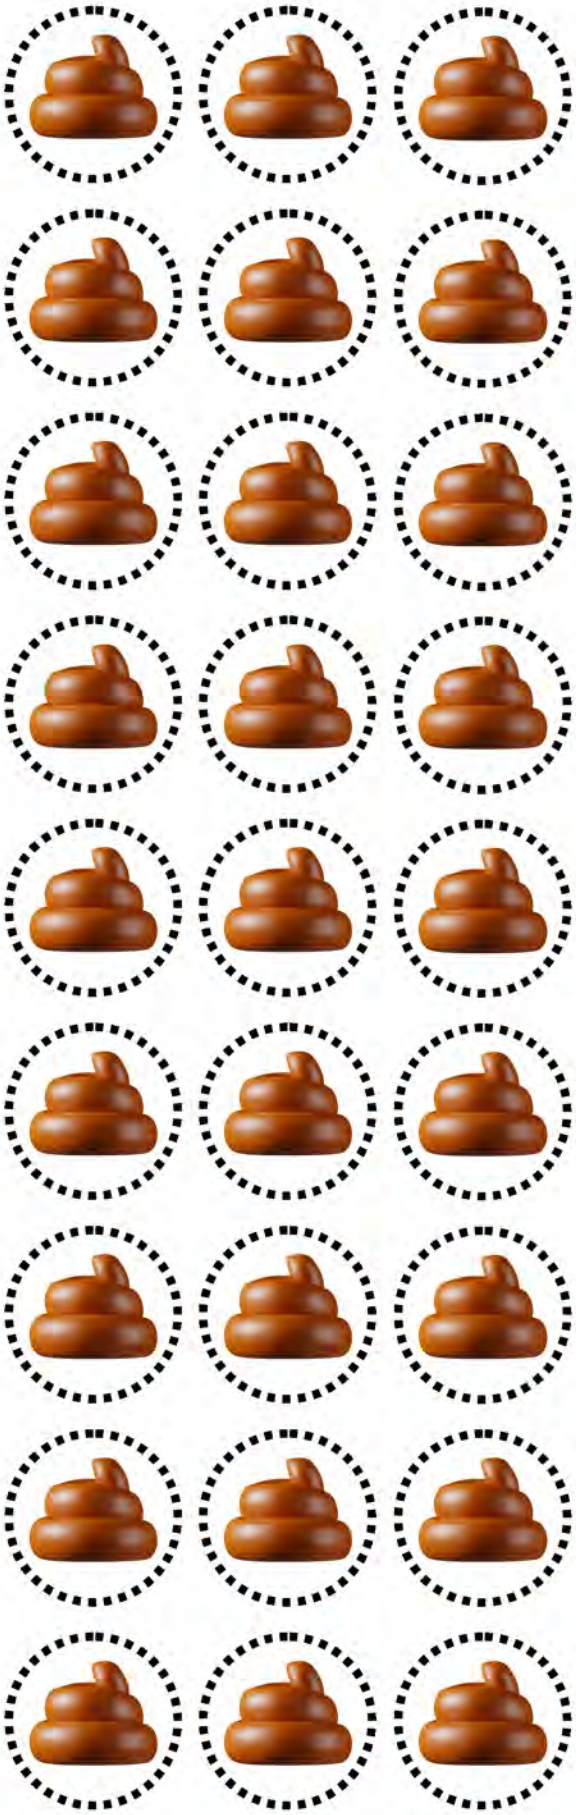
Utilize a flat sheet of playdough as a writing surface and dictate the letters that have already been practiced.

PROJECT ACTIVITIES
PRINT OUT









FARM GARDEN

From pages 229 and 231 please cut out and label each animal with either "a" or "an."

Once completed, laminate the cutouts and assemble your own farm to take home.

Tip: Utilizing bird seeds can promote quicker growth!

Additionally, consider incorporating gardening verbs such as "trim," "prune," "cut," "water," and "grow."

To ensure that vocabulary is being comprehensively understood, consider incorporating a game inspired by "Gato, Taco, Pizza" or its alternative version, "Snap." Children will thoroughly enjoy this game and will likely request to play it repeatedly. Remember, practice leads to perfection!
This game can be purchased on our website under the name of "Farm animal game"
